TJ Machine Learning

Call for Mentors

Students get the opportunity to present in front of professionals and get advice and mentoring. Opportunity for research mentors to recruit student interns based on their research.

Interest Form:
https://forms.gle/6VPTiewC9mBBsdgv7

Where: 6560 Braddock Rd, Alexandria, VA 22312

When: April 22, 2023

Duration: 9 AM - 2 PM

Networking

Mentors can meet talented high school researchers who are entering the scientific community. These students can receive feedback on their projects from professionals in the field and form connections.

Keynote Presentations

Please let us know if you would be willing to give a high-level presentation of research you conduct at your institution. This may inspire students to continue in this path!

Student Research

Learn about student research and provide advice. High school student research has often been presented at conferences and prestigious events including Regeneron ISEF.
